

The **Center for Autism Research Excellence (CARE)** at Boston University is a leader in the development of inclusive scientific methods that create a fun experience and supportive environment for everyone who participates in our research.

YOUR FAMILY CAN PARTICIPATE TODAY!

We offer flexible scheduling times, free parking, and compensation for all visits to our location.

Email: care@bu.edu or call us at (617) 358-5910 with any questions and to schedule your family's first visit.

"I went from thinking 'She'll never do that!' to 'What else can she do?' That was one of the best things that I took away from this experience."

-Father of an adolescent with ASD

One of our participants was featured in a piece called *Unlocking Emily's World: cracking the code of silence in children with autism who barely speak.*

Study Spotlight:

The Autism Center of Excellence study supports multi-disciplinary collaborative research efforts to understand brain-behavior connections associated with language development in children and adolescents with and without autism spectrum disorder (ASD).
